Kidsville News! Brainworks Worksheet
October Enrichment Activities
Grades 3-6

Students: After reading "Around the World," use information from the article to create a treemap of information about the three forces that impact a ball in motion. Name the three forces in the large boxes and record facts and details about each force underneath. Complete sentences are not needed. Draw a picture to show the forces that impact a ball in flight inside the bottom box.

Kidsville News! Brainworks Worksheet
October Enrichment Activities
Grades 3-6

Students: After reading "Wildville," create a story about how the pangolin got its scales. Be creative and inventive as you think of imaginative, fictitious way that this endangered creature may have gotten its full body armor of scales. Continue writing on the back of this paper to expand your tale!
