**Answer Key**

**Students:** After reading "Connections," answer the following questions in your own words. Answer in complete sentences.

**Parents and teachers:** Answers are below.

**1. How would you use this information to convince your parents to allow you to get a pet?**

Students should say something like this: *I would use the information to inform my parents on how I can help with the pet care so that all the responsibility does not fall on them.*

**2. Why is it important to take good care of our pets?**

Pets cannot take care of themselves and need their human owners to care for them so they can stay alive and healthy. If we own pets, we cannot neglect their care.

**3. In which form of care would you most excel? Why?**

Answers will vary.

**4. What is the main idea of this article?**

The main idea of this article is that pet care is important and the role of young family members (*like me*) in this care is needed and helpful.

**5. How would you prioritize the forms of pet care presented in this article?**

Answers may vary but note that while all of the tasks are important, it is most important that pets get the food they need to stay alive and healthy.
