February 2026 Grades K-2

Students: After reading “Wildville,” answer the following questions about the snowy owl as true or false. Write your answer on the line provided.

1. _____ Squirrels are a major part of the owl's diet.
2. _____ Snowy owls are most active at dawn and dusk.
3. _____ Since snowy owls are so large, they do not have any predators in the forest.
4. _____ Humans pose a big risk to snowy owls due to hunting, fishing and highway accidents.
5. _____ Female snowy owls usually weigh about 3 1/2 pounds. Males are lighter and weigh closer to 3 pounds.
6. _____ A distinguishing characteristic is the green eye color of the snowy owl.
7. _____ The Snowy owl is protected as an endangered bird.
8. _____ They are herbivores, or plant eaters.
9. _____ Snowy owls have a wide wingspan of almost 67 inches.
10. _____ Most owls are nocturnal, but the snowy owl is diurnal, which means they sleep during the day.
11. _____ The average lifespan of a snowy owl is 9 years.
12. _____ Having almost entirely white feathers helps the snowy owl blend into its native habitat, the Arctic. This is an important survival feature.
