Answer Key

Students: After reading “Wildville,” fill in the circle map below with at least **five** words or phrases that describe camels. Complete sentences are not required. **Parents and teachers:** Possible answers are below.

Dromedary camels live in the Middle East and have one hump.

A baby camel is called a calf, a male adult is a bull, and a female adult is a cow.

Camels are used for transportation and help people carry things. They can carry up to 200 pounds.

Camels can provide humans with milk, meat and wool.

Camels live in the largest deserts of Africa and Asia.

Camels

Camel racing is a popular sport in many places.

Bactrian camels live only in China and Mongolia; they have two humps.

Camels have long eyelashes and protective eyelids to help them not get sand in their eyes.

Camels became domesticated around 5,000 years ago. There are some wild camels but not a lot.

Camels can a long time without food or water.

Camels will kick and spit to defend themselves.

The word camel actually means “beauty” in the Arabic language.
